Western Australia Women in Leadership Workshop

BACKGROUND

It is a well-known fact that women remain critically underrepresented within senior executive leadership. A greater female participation helps to enhance diversity and has been proven to be a key component for better business outcomes. The corporate world has seen a slight increase in senior female leaders in recent years but this current growth is not sufficient to attain the benefits provided by gender diversity.

In order to increase the number of women represented in senior executive leadership it is essential to equip aspiring leaders with the distinct tools for leadership success. Women must be able to identify the opportunities for career advancement, build supportive networks, remain resilient through change, and continuously cultivate their crucial leadership skills.

The Women in Leadership Workshop will offer an inspiring learning and networking platform. The event aims to provide existing and emerging female leaders with the strategies and skills required to excel in their careers.

IN-HOUSE TRAINING AVAILABLE

Do you have a team of ten or more people requiring this training? If so, it may be more cost effective for Liquid Learning to bring the training to you. Contact us to discuss your needs today.

TRAINING DELIVERY AND PRE-COURSE QUESTIONNAIRE

This workshop will be delivered using a three tiered approach. The structure of each session is as follows:

1. Technical overview and review of research into the topic area under discussion
2. Practical application of management principles in the review of case studies, worked examples and interactive exercises
3. Discussion of outcomes and implementation issues

Workshop participants will have the opportunity to include comments and questions about issues outlined in the program by way of a pre-course questionnaire. This feedback will enable the course facilitator to adjust content accordingly. The workshop has limited places to allow for customisation, greater interactivity and for individual concerns to be addressed.
